THE SHROUD OF TURIN ASSEMBLY

<><><><><><><><><><><><>

The 9.5 x 40 inch Shroud of Turin is a miniaturized Giclée copy of the original burial cloth. Our first display at the Charlotte Diocesan Eucharistic Congress drew many pre-teen children who, in their words, wanted "*to touch the place where they hurt Jesus*."

To protect the image and give the children total access to the image, our shop framers have treated the front face of the image with a UV vinyl coating lamination. The image is secured to a 1/4 inch HDF hardboard by a heat activated adhesive. [If needed, the art can be removed.]

The back is sealed, our select framing is custom cut to fit and assemble. We add *zig-zag* holders on the back and make a final inspection before shipping.
